

## **Feedback on Mobile Survey App**

### **-Dealer Registration Section:**

1. Incorporation of additional information i.e. Name of Flour Mill (from which the dealer receives subsidized flour), Total weekly quota of dealer (in order to calculate per person per month quota in each mohallah).
2. Restricting the dealer registration section so that random people will not be able to register themselves as dealers. Dealers should fill their sections only in supervision of food staff.
3. Incorporation of information of Mohallah committees who will recommend the dealer.
4. Information regarding eligibility of dealers to be mentioned in the app.
5. Tenure of dealers and information regarding periodic replacement of dealers should be mentioned in the app.
6. GPS guidance to dealer shop through google map for convenience of Flour mill employees and general public.

### **-Household Member Registration Section:**

1. Mechanism to restrict the addition of ghost family members should be in place.

### **-General Feedback:**

1. Clarification required in filling the sections i.e. who will fill which section of the online survey form (either the Food department officials, dealers or general public). On each section it should be mentioned that \*This section is to be filled by Food Department Official/Dealer/Public\*
2. A separate section for uploading the information of Area Incharges.
3. A separate section for uploading the information of Flour Mills/Mill Incharges.
4. A separate section for uploading the information of Depots and Depot Incharges.
